

SBRP/EPA 2007 Risk-e-Learning Web Seminar Series:

Nanotechnology – Applications and Implications for Superfund

These online seminars will highlight the potential of nanotechnology to support characterization and remediation of hazardous waste sites as well as explore the potential risks of this new class of compounds. The seminars will be broadcast live on the EPA Hazardous Waste Clean-Up Information (CLU-IN) Network.

RISK^eLearning

http://www-apps.niehs.nih.gov/sbrp/risk_elearning/

Session 1: Introduction. *January 18, 2007, 1-3pm*

Moderator: William Suk, Director, SBRP

Speakers: Nigel Walker, NIEHS/NTP and Nora Savage, EPA/ORD

Session 2: Nanotechnology – Metal Remediation. *Tentative date: February 13, 2007*

Session 3: Nanotechnology – DNAPL Remediation. *Tentative date: March 15, 2007*

Session 4: Nanotechnology – Superfund Site Remediation. *Tentative date: April 19, 2007*

Session 5: Nanotechnology – Environmental Sensors. *Tentative date: May 17, 2007*

Session 6: Fate and Transport of Nanoparticles. *Tentative date: August 16, 2007*

Session 7: Nanoparticles and Human Toxicology. *Tentative date: September 13, 2007*

Session 8: Nanoparticles and Risk Assessment. *Tentative date: September 20, 2007*

Session 9: Nanoparticles and Ecotoxicology. *Tentative date: October 15, 2007*

Session 10: Looking Ahead: Nanotechnology and Superfund. *Tentative date:
November 15, 2007*

Check <http://www-apps.niehs.nih.gov/sbrp/products/products4.cfm> for updates to the agenda

Registration for the January seminar will open **January 3, 2007**

To register, go to <http://clu-in.org/live/>
Registration is free – but spaces are limited
